WALL & CEILING PANELS

NORDIC PAINTED WALL PANELS

WHITE

NORDIC PAINTED WALLS FROM HUNTONIT

- Produced in Norway with nothing else but pure natural wood fibres. The fibres are compressed and fused together in a heat and water process, no other additive or glue.
- Patented brush painted surface - The panels are treated with five coats of environmentally friendly water-based acrylic paint. The finishing layer is a protective coating.
- The panels have sound-absorbing qualities, thanks to their sound diminishing cladding.
- The only pre-painted wall and ceiling panels recommended by the Norwegian Asthma and Allergy Association.
- Approved for an Indoor Climate Label from the Danish Technological Institute.
- Durable and low maintenance. The panels are easy to clean, and can be re-painted without using a primer.
- The dense complexion makes them suitable for fixtures and fixings.

BRUSH PAINTED PANEL - Nordic Painted Wall

Pre-painted shadow profile with brush painted surface.

The profile provides an original and timeless expression.

Delivered in a 2 pack, making them easy to carry. Panel size: 11 x 620 x 2390 mm

ACCESSORIES

ARCHITRAVES, SKIRTING BOARDS, COVING AND BEADING

In order to complete a project beautifully, you need high quality finishing products. We stock a wide variety of sizes and profiles of anything you would need for those finishing touches. Made from pine-wood and all factory sprayed white, so no need for painting them after installation. And what is better, they are environmentally friendly, durable and long lasting, as they are made from real wood.

NORDIC PRO WALL

THE WORLD'S FIRST PURE WOOD-BASED WALL BOARD THAT GIVES A SMOOTH SEAMLESS WALL IN RECORD TIME!
EASY AND QUICK FITTING ON STUDS OR DIRECTLY ON WALL.

NEW INNOVATIVE WOOD-FIBRE BOARD FROM HUNTONIT

The Nordic PRO wall board are supplied primed and ready for two coats of paint - no skimming needed!

The boards surface have 3 coats of water based acrylic primer, making them ready for painting or wall papering. Simple and quick to fit on vertical or horizontal joists or on existing wall. Perfect for both new built walls and refurb. The boards are suitable for painting and wall papering.

The primed boards have fire rating D-s2-d0, while we can offer a 2-coat upgrade paint that improve fire rating to B-s1,d0. The boards can be used in REI-30 and REI60 walls. Nordic PRO Wall conform to climate zone 2 and deal well with temperature and humidity variations. *Suitable for bathroom use, but not inside shower cubicles or areas with direct water.

Fixing of board with screws or nail/staple gun. Screw-hold for fixings has a pull value of 150kg which means heavy screens, shelving and paintings can be screwed on directly on to wall. Density is 900 kg/m³.

We stock board length 2420mm and can supply on order 2800 mm. They are 620 mm wide and 11 mm thick.

NORDIC PRO WALL

CERTIFICATIONS REQUIRED BY UK REGULATIONS

BREEAM[®] NOR

Own declaration:
HEA 02, BREEAM NOR.
ISO 14001. EPD. PEFC.
Nordic Swan Ecolabel.
SINTEF technical approval.
Internal climate test.
Asthma and allergy recommended.

FIRE PROTECTION UPGRADE

Scandinavian Trading Ltd offer our own fire-retardant paint and varnish for wood surfaces.

The Nordic PRO Wall is already primed and only needs a two-coat paint finish to be completed. Our Nordic QVFR fire retardant in white and tinted colours are very suitable for a ready finished wall with fire classification B-s1,d0.

We can also supply a fire retardant glue to use with the system. Please read further on www.scandinaviantrading.co.uk

ENVIRONMENTALLY FRIENDLY

Nordic PRO wall is a pure natural product which does not have any emissions of harmful gasses. Tested to M1 Emission classification of building materials.

The PRO wall is made using pure wood-fibres in a process with water and compressed under heat. The process is done without adding glue which would compromise emissions.

The process uses the natural binding material Lignin which is a natural ingredient in wood. Thanks to being made by pure wood and being tested for low emission the product is recommended by the Asthma and Allergy Association in Norway.

NORDIC CEILING PANELS - Brushed or Sprayed

WHITE

PRE-PAINTED CEILING PANELS - Best solution for ceilings

- Smooth surface
- Tongue and groove on all four sides for easy installation
- Pre-painted white
- A classic choice that lasts with minimal maintenance.
- Five coats of environmentally friendly water-based paint.

These Nordic Ceiling Panels from Huntonit are made of the same material as the Nordic Painted Wall Panel. Down lights may be installed in all our ceiling panels. Nordic Ceiling Panels are resistant to moisture, and can be installed in wet rooms outside of the wet zone.

Note that tongue and groove will be hidden after installations. Net size is 20mm smaller on the width.

SMARTPANEL - Wood

TAR BROWN

SMARTPANEL WOOD

Smartpanel Wood is the smart wall that brings nature into your home. A beautiful natural wall panel that is completely unique, easy to install and not least with a stained finish. Smartpanel Wood comes in 5 different beautiful colours, but also as untreated panel so you can treat the panel yourself in the colour you want.

Make the home a cosy zone, where you find peace and get new energy. The natural glow and vibrancy of wood is a beautiful part of Norwegian building tradition, and the wood structure can also be enhanced into more modern interiors. The stained surface shows the wood beautifully in timely colours.
